

HIGHLIGHTS

CLASSROOMS

The rooms are 580 sq. ft. and spacious, airy, and well-furnished classrooms equipped with display boards for students to showcase their educational and co-curricular activities.

LIBRARY

The school features an impressive 1,800 sq. ft. library that offers students a gateway to knowledge and exploration. It is thoughtfully stocked with a wide collection of valuable books, journals, magazines, and newspapers, along with computers that provide access to e-books and digital magazines.

SCIENCE & MATH LAB

The school has well-equipped laboratories of around 1000 sq. ft. for imparting practical knowledge in science. The lab has ample specimens, chemicals, and equipment so that each student gets the opportunity to carry out experiments independently.

COMPUTER LAB

The school features a well-equipped computer lab with modern technology and high-performance monitors. Providing access to computers and advanced software, the computers in the lab are installed with relevant software, offering practical, hands-on experience in information and communication technology (ICT).

TRANSPORT

We offer safe, secure, and regulated transportation services, covering designated routes. With GPS surveillance and communication system with Live Tracking, Real-Time Alerts, and Event Logs. Drivers and female attendant are trained and monitored to ensure the safety of each child.

WHO WE ARE

Nagarjuna Education society was set up in the year 1990 in R.T. Nagar to provide a Sound Academic Foundation combined with curricular activities, aimed at bringing up the all-round development of a child.

At **Siddhartha Public School**, we believe in providing quality education to our students through imbibing Indian values and adopting modern methods. Quality education is not only about a child's all-round growth and development but is also essentially discovering hidden talents and skills of children and honing these by guiding their learning, to achieve success and fulfilment in life.

We believe that a good all-round education is a passport to the future and tomorrow belongs to those who prepare for it today. This is in sync with our philosophy of ensuring our students are "Future Ready"
